#### Disclaimer

This response to a COI query has been elaborated according to the <u>EASO COI Report Methodology</u> and <u>EASO Writing and Referencing Guide</u>.

It was produced in response to COI information requests received from the EUAA Country Guidance drafting team in the development of country guidance on Afghanistan. Query responses are produced within a limited time period, typically within 5 to 10 days. Within these time constraints, the information provided in this response has been researched, evaluated and processed with utmost care.

All sources used are referenced and cited in the bibliography section. A quality review has been performed in line with the above mentioned COI methodology. This document does not claim to be exhaustive or conclusive as to the merit of any particular claim to international protection. If a certain event, person or organisation is not mentioned in the report, this does not mean that the event has not taken place or that the person or organisation does not exist. Terminology used should not be regarded as indicative of a particular legal position.

The information in the response does not necessarily reflect the opinion of EUAA and makes no political statement whatsoever. The target audience is policy makers, caseworkers, COI researchers, and decision-making authorities. Any event taking place after the reference period is not included in this query response.

# **COI QUERY RESPONSE – Afghanistan**

## Major legislative, security-related, and humanitarian developments

## 1. Recognition status and territorial control

The *de facto* administration of Afghanistan, officially the Islamic Emirate of Afghanistan (IEA), continues not to be recognised by any country in the world as of 30 October 2022.<sup>1</sup>

The Foundation for Defense and Democracies' (FDD) Long War Journal assessed 7 districts as contested on 29 August 2022: Warsaj (Takhar Province), Khost wa Firing and Andarab (Baghlan Province), Shutul, Darah, Unabah, and Khinj (Panjshir Province), although cautioning that such assessments are 'extremely difficult' since the collapse of the former government.<sup>2</sup> Afghanistan expert Barnett R. Rubin, however, described the Taliban as being in control of all of Afghanistan's territory and population in an article from 20 October 2022.<sup>3</sup>

<sup>&</sup>lt;sup>1</sup> TOLOnews, 15 Months After Takeover, Islamic Emirate Not Recognized by World, 30 October 2022, url

<sup>&</sup>lt;sup>2</sup> FDD's LWJ, One year after U.S. withdrawal, resistance to Taliban rule grows, 29 August 2022, url

<sup>&</sup>lt;sup>3</sup> Rubin, B. R., Afghanistan Under the Taliban: Findings on the Current Situation, Stimson, 20 October 2022, <u>url</u>

#### 2. Legislative changes

On 21 July 2022, the Taliban supreme leader issued a decree banning defamation and unproven criticism of [de facto] government officials.<sup>4</sup> The decree added to previous restrictions on media content issued during the months following the Taliban takeover in 2021.<sup>5</sup>

# Other directives issued by the de facto authorities, including provincial decisions

Ahead of the university entrance exams in October 2022, the Taliban announced that women will only be able to choose certain academic fields for public university studies. A spokesman for the Taliban Ministry of Higher Education stated that subjects not necessary for women will not be introduced, but he did not specify the concerned fields.<sup>6</sup> According to BBC News, women may take courses in medicine, nursing, teaching, and Islamic studies in all provinces, while veterinary science, engineering, economics and agriculture appear not to be options of choice.<sup>7</sup> Radio Free Europe/Radio Liberty (RFE/RL) also reported that women may not apply for 'many courses', including engineering, economics, and also journalism.<sup>8</sup> BBC News described opportunities to study journalism for women although they were 'extremely limited'.<sup>9</sup>

On provincial level, the Taliban in Nimruz Province ordered coffee shops to close, and wedding halls to stop playing music at wedding parties.<sup>10</sup> In Mazar-e Sharif shopkeepers were ordered not to sell to women without *hijab*.<sup>11</sup>

One local media report claimed that the Taliban in Badakhshan had announced that wearing *burqa* or *niqab* is compulsory for women.<sup>12</sup> In a previous national decree, women have been instructed to cover their faces<sup>13</sup>, but Taliban officials stated that the decrees were not compulsory.<sup>14</sup> Another local media report stated that shopkeepers in Mazar-e Sharif had been ordered to close their shops during prayers and attend them.<sup>15</sup> Moreover, a media report claimed that the Taliban in Kandahar had ordered male teachers and high-school students to pledge in writing that they will conform with the Taliban's interpretation of *sharia*, including

traditional Afghan dress codes for men and growing a beard. Failure to sign or adhere to the pledge could lead to students and teachers being dismissed. <sup>16</sup> Corroborating information could not be found among the sources consulted by EUAA within the time constraints.

#### Secondary education for girls

Private secondary schools were reportedly allowed to offer education for girls in all provinces.<sup>17</sup> However, many schools closed due to lack of resources stemming from families affected by poverty and unemployment, and their resultant inability to pay school fees.<sup>18</sup> Public secondary schools reportedly remained closed in most provinces.<sup>19</sup> No statistics on enrolment rates were reported to be available.<sup>20</sup> In September 2022, five secondary schools in Paktia Province were reopened for a few days.<sup>21</sup> The schools were located in Gardez and Samkani districts, and their reopening was based on a decision of local stakeholders.<sup>22</sup> According to RFE/RL the Taliban Ministry of Education had not approved the decision, hence it was revoked.<sup>23</sup>

According to RFE/RL, the Taliban in Kandahar Province conducted inspections of girls' primary schools and expelled hundreds of secondary education aged girls but who attended primary level education.<sup>24</sup> Corroborating information could not be found among the sources consulted by EUAA within the time constraints.

## 3. Security situation

#### Targeted killings of former government affiliates

Although the Taliban issued an amnesty after their takeover on 15 August 2021, targeted killings of former government affiliates and its security forces have taken place.<sup>25</sup> In his first report to the Human Right Council on 6 September 2022, the UN Special Rapporteur on the situation of human rights in Afghanistan stated that the issued amnesty had 'serious flaws' in

its implementation, and noted ongoing reports of extrajudicial killings and forced disappearances of former officials and members of the Afghan National Defense and Security Forces (ANDSF).<sup>26</sup> Inkstick media noted geographical differences in the amnesty's implementation, but could not identify any clear patterns on why the amnesty was being respected in some areas and others not. The source named Kandahar as a province lacking efficient implementation, while Kamdesh District (Nuristan Province) served as an example of where the amnesty was respected and where former officials were part of the local councils.<sup>27</sup> Corroborating information could not be found among the sources consulted by EUAA within the time constraints.

Local media reports on killings committed by Taliban members included the killing of a former commander of a militia, the Popular Uprising Forces, in Takhar Province on 13 October 2022<sup>28</sup>, and a former police chief in late September 2022. The former police chief had reportedly been invited by the Taliban in Laghman Province to discuss issues unrelated to his previous position but was killed. The people in his home area Mandol District (Nuristan Province) reacted and drove out the Taliban from the district.<sup>29</sup> In another case from 12 October 2022, Taliban members in Paktika Province fired against a car carrying a former local commander and his family, causing the death of his son.<sup>30</sup> Corroborating information could not be found among the sources consulted by EUAA within the time constraints.

Local media reports on targeted killings without a known perpetrator included the killing of a former director at the Ministry of Defense in Takhar Province on 22 October 2022<sup>31</sup>, a former commander of the National Directorate of Security (NDS) in Asadabad City (Kunar Province) on 16 October 2022<sup>32</sup>, and a former USAID employee in Kabul City around 13 October 2022.<sup>33</sup> Corroborating information could not be found among the sources consulted by EUAA within the time constraints.

Furthermore, a former intelligence department employee in Samangan Province was reportedly arrested during his son's wedding on 2 October 2022. The man had returned to work after the Taliban issued their general amnesty, but was dismissed a couple of months before his arrest.<sup>34</sup> Amnesty International reported on a similar case that occurred in 12 April 2022, when a police officer of the former government was detained and later killed after

having been back in service under the Taliban for several months.<sup>35</sup> Corroborating information could not be found among the sources consulted by EUAA within the time constraints.

### Large-scale clashes

During the reference period the ongoing insurgency in Afghanistan could be divided into two factions, one led by the National Resistance Front (NRF) and other groups affiliated with the former government, and one led by the Islamic State Khorasan Province (ISKP).<sup>36</sup> NRF and affiliated groups have been active in Panjsher Province and adjacent northern areas<sup>37</sup>, while ISKP has been active in eastern provinces, and parts of the north.<sup>38</sup>

Attacks and casualties claimed by the NRF have mainly been reported by the local media source Hasht-e Subh<sup>39</sup>, while the Taliban frequently have denied reports of fighting in the north.<sup>40</sup> The lack of reliable information make claims by the Taliban and resistance groups very difficult to corroborate.<sup>41</sup> Intense battles have been reported in Badakhshan Province in late September<sup>42</sup> and in October 2022<sup>43</sup>. Intense fighting also reportedly took place in Dara District in Panjsher Province in mid-September 2022.<sup>44</sup> Following clashes in Badakhshan and Panjsher provinces, the Taliban have made claims of killing and arresting NRF members<sup>45</sup> while there were other reports on the Taliban executing prisoners of war.<sup>46</sup> In one case, Taliban spokesperson Zabihullah Mujahid stated on Twitter that a major clearance operation had been carried out in Rokha, Abshar and Dara districts in Panjsher Province.<sup>47</sup> He further claimed that the Taliban had killed 40 and arrested more than 100 members of 'a rebel force'. The NRF stated that the numbers were exaggerated.<sup>48</sup> Soon thereafter videos circulated which appeared to show the Taliban executing two groups of men from the NRF.<sup>49</sup> The UN Special Rapporteur on the situation of human rights in Afghanistan expressed deep concern about the

allegations and called for an investigation<sup>50</sup>, while Amnesty international carried out an initial assessment confirming that the videos did show extrajudicial executions carried out by the Taliban of apparent NRF members.<sup>51</sup> Afghan Witness (AW) later reported that they, trough OSINT techniques, could link the Taliban to executions of 10 men in Dara District. In addition, AW reported on an additional 17 executions and 30 deaths allegedly taking place in Panjsher Province in September 2022.<sup>52</sup>

The UN Special Rapporteur on the situation of human rights Afghanistan stated on 6 September 2022 that the conflict between the Taliban and NRF had caused significant suffering and violations of international humanitarian and human rights law. He especially pointed out Panjsher Province and Andarab District (Baghlan Province) from where he had received reports of civilians being subjected to arbitrary arrests, extrajudicial killings and torture, which sometimes appeared to be collective punishments.<sup>53</sup> Following a visit to Afghanistan in October 2022, the UN Special Rapporteur stated that communities in inter alia Panjsher Province were being 'heavily suppressed' and that civilians considered to be associated with the NRF were subjected to house searches, arbitrary arrests, detentions, extrajudicial killings, torture, displacement and an information blackout.<sup>54</sup> Media sources have also reported on the Taliban subjecting civilians in Pansjher Province to arrests<sup>55</sup>, killings<sup>56</sup>, torture and forced evictions<sup>57</sup> and on limited information flows in the area.<sup>58</sup>

ISKP have targeted Taliban members in suicide attacks.<sup>59</sup> The Taliban's efforts to restrain ISKP has coincided with a crackdown on Salafists.<sup>60</sup> In July 2022, Human Rights Watch released a report on extensive killings of alleged ISKP affiliates in eastern Afghanistan. The investigation suggested that only in the Darunta Canal in Nangarhar Province, over 100 bodies were dumped between August 2021 and April 2022.<sup>61</sup> The UN Special Rapporteur also noted allegations of ANDSF forces having been targeted in Nangarhar under the pretext that they were ISKP fighters.<sup>62</sup>

## Major incidents such as suicide attacks and other bombings

During the reference period the number of attacks claimed by ISKP was lower in contrast to preceding months. Through their Telegram channels ISKP claimed between 7–12 attacks per month in Afghanistan during July–September 2022, in contrast to April 2022 when the group claimed over 25 attacks. Bombings claimed by ISKP as well as unclaimed bombings have been carried out against Taliban targets during the reference period. Other unclaimed bombings have been carried out outside three Sunni mosques resulting in several deaths and injuries. In one mosque attack a prominent pro-Taliban cleric was targeted. Two other pro-Taliban clerics were killed in other attacks claimed by or attributed to ISKP.

A string of ISKP attacks targeting the Shia Hazara group occurred in Kabul City during three consecutive days (5–7 August 2022) before the Ashura' commemoration on 8 August 2022.<sup>69</sup> These attacks included a bombing targeting a Shia religious mourning ceremony<sup>70</sup> in Sare-Kariz, PD6, Kabul City.<sup>71</sup> 8 people were reportedly killed and 18 injured.<sup>72</sup> Another blast occurred in a busy shopping street<sup>73</sup> in Pol-e-Sukhta (a Shia dominated area<sup>74</sup>) in PD6, Kabul City.<sup>75</sup> Reports on the death toll varied between 2<sup>76</sup>, 3<sup>77</sup> and 8<sup>78</sup>, as well as reports on the

number of injured which ranged from 7 to 30.<sup>79</sup> Last, a bombing targeted a minibus in Chindawol (another Shia dominated area) in Kabul City. No casualties were reported.<sup>80</sup>

Unclaimed bombings in August and September 2022 have been reported in the Shia dominated area<sup>81</sup> Dasht-e-Barchi in Kabul City.<sup>82</sup> On 30 September 2022, a suicide bombing was carried out against the Kaaj educational center.<sup>83</sup> Most victims were reported to be teenage girls.<sup>84</sup> On 3 October 2022, UNAMA reported that at least 53 people had been killed and over 110 injured<sup>85</sup> while earlier estimates by other sources ranged between 19 casualties, as reported by Taliban officials, and 100 casualties, as reported by local media.<sup>86</sup> The attack received attention, inter alia on Twitter under the hashtag #StopHazaraGenocide which had been used in more than 10 million posts as of mid-October 2022.<sup>87</sup>

In September 2022, both the UN Special Rapporteur and Human Rights Watch commented on the situation of Hazaras. The UN Special Rapporteur stated that the recent years' attacks on Hazaras and non-Muslim Afghans, often claimed by ISKP, appeared to be 'systematic in nature and reflect elements of an organisational policy, thus bearing hallmarks of international crimes including crimes against humanity'. He also noted reports of an increase in 'inflammatory speech' against Hazaras, both online and in some mosques, including calls for Hazaras to be killed. Corroborating information on the information on inflammatory speech could not be found among the sources consulted by EUAA within the time constraints. Human Rights Watch stated that ISKP had carried out 13 attacks against Hazaras since the Taliban takeover, and that the group could be linked to 3 additional attacks, resulting in the death of at least 700 people. Corroborating information on these figures could not be found among the sources consulted by EUAA within the time constraints.

Other attacks included a bombing in a Sikh-owned shop close to a Sikh place of worship in Kabul City which did not cause any casualties on 27 July 2022<sup>92</sup> and a hand grenade attack against a crowd attending a competition at Kabul International Cricket Stadium on 29 July

2022.<sup>93</sup> Taliban officials reported on 2 deaths, while other sources reported on 19 deaths.<sup>94</sup> Moreover, a suicide bombing was carried out outside the Russian Embassy in Kabul City, causing 6 deaths, while different numbers were reported on wounded, starting from 10.<sup>95</sup>

#### Conflict data

Conflict data indicated a slight decrease of security-related events in July 2022, after peaks in May and June 2022, but thereafter remained on relatively consistent levels. The amount of recorded security-related incidents was however higher after 15 August 2022, than the corresponding period in 2021, in the immediate aftermath of the Taliban takeover.<sup>96</sup>

Conflict data from the Armed Conflict Location and Event Data Project (ACLED)<sup>97</sup> is demonstrated below. The following section has a longer reference period than other parts of the document, 15 August 2021–21 October 2022, because conflict-related data as of the Taliban takeover was specifically requested for this query response.

Between 15 August 2021–21 October 2022, ACLED recorded 2 321 events and 4 602 fatalities. 1 046 events were codified as 'battles' which caused 2 629 fatalities. 451 events were codified as 'explosions/remote violence' which caused 1 131 fatalities. 824 events were codified as 'violence against civilians' which caused 842 fatalities. 98

UCDP, data covering 16 August 2021 to 22 October 2022 provided by courtesy of UCDP in an email, 24 October 2022 <sup>97</sup> ACLED, The Armed Conflict Location & Event Data Project - Bringing clarity to crisis, n.d., url. Only events with geo-precision level 1 and 2 have been used and only events recorded as 'battles', 'explosions/remote violence' and 'violence against civilians'. Cases with geo-precision level 3 comprise 197 events leading to 426 fatalities. In most provinces, the information does not differ significantly when sorting out events with geo-precision level 3 although it makes a difference in provinces such as Panjsher where for instance 45 events leading to 106 fatalities have not been included in the COI query. For more information on ACLED data and how it is used by the EUAA, see EUAA COI Report: Afghanistan – Security situation (August 2022).

Most events were recorded in Pansjher Province, which also had the highest number of recorded battles (193) and fatalities (820). The number of recorded battles peaked in May and June 2022 when 26 respectively and 30 such events were recorded, and in July–September the average number of recorded battles was 17 per month. Most fatalities (488) were recorded in this period (May–September 2022). In adjacent provinces, there were also a higher number of battles recorded than in other parts of Afghanistan, including Baghlan (144), Takhar (98), Parwan (67), Kapisa (57), and Badakhshan (63). The fatality numbers were also higher than in other areas: Baghlan (521), Takhar (252), Parwan (174), Kapisa (133), and Badakhshan (197).

Other provinces where over 50 battles were recorded included Nangarhar (76) and Kabul (58). Most battles in Nangarhar took place in October–November 2021 (31 in total), and a total of 352 fatalities were recorded. Kabul Province was the province which experienced most 'explosions/remote violence' (102) and 'violence against civilians' (123) and had the second highest fatality numbers (687). Violence against civilians was also recorded in over 50 instances in Nangarhar (81), Takhar (69), Baghlan (70), Panjsher (56), and Kandahar (50).

Other provinces where at least 100 fatalities were recorded included Kunduz (220), Kandahar (178), Balkh (148), Kunar (114), Sar-e Pul (109), Helmand (101) and Herat (100). In Kunduz and Kandahar, 80 respectively 47 fatalities were recorded in relation to suicide attacks carried out

<sup>&</sup>lt;sup>99</sup> EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Afghanistan, data covering 15 August 2021 to 21 October 2022, as of 28 October 2022, url

Data from the Uppsala Conflict Data Program (UCDP) was retrieved for the reference period 16 August 2021–22 October 2022. During this period 504 security incidents were recorded and 1 086 civilian deaths. Most civilian deaths occurred in Kabul Province, but 141 deaths out of the total of 409 were recorded in relation to the suicide attack against Kabul international airport on 26 August 2021. Other events causing high numbers of civilian deaths included an attack against a Sufi place of worship on 29 April 2022, in relation to which 66 civilian deaths were recorded, and the attack against the Kaaj education center on 30 September 2022, in relation to which 52 civilian deaths were recorded. Most incidents were recorded in Nangarhar and Panjsher. In Nangarhar, 50 out of 80 incidents were recorded in 2021, and most of them in the months of October and November. 103

<sup>&</sup>lt;sup>101</sup> EUAA analysis based on publicly available ACLED data. ACLED, Curated Data Files, Afghanistan, data covering 15 August 2021 to 21 October 2022, as of 28 October 2022, url

<sup>&</sup>lt;sup>102</sup> UCDP, Department of Peace and Conflict Research – Uppsala University, Sweden, n.d., <u>url</u>. The UCDP data set distinguishes 'unclear' cases from 'clear' cases. The former category contains conflicts that likely fulfil the definition of a conflict used by UCDP, but where information on one criterion is missing. In this product only 'clear' cases are used. The number of cases not marked as 'clear' in the dataset compromise 643 cases, resulting in 391 deaths. For more information on UCDP data and how it is used by the EUAA, see <u>EUAA COI Report: Afghanistan – Security</u> situation (August 2022).

#### 4. Economic and humanitarian situation

After the Taliban takeover in 2021, the economic and humanitarian crisis escalated. Aid organisations met a situation where it was difficult for them to operate, as they tried to avoid

were not marked as 'clear' in the dataset. Badakhshan (18 events, 6 civilian deaths), Badghis (5 events, 6 civilian deaths), Baghlan (46 events, 12 civilian deaths), Balkh (10 events, 9 civilian deaths), Bamyan (3 events, 2 civilian deaths), Daikundi (4 events, 5 civilian deaths), Farah (14 events, 11 civilian deaths), Faryab (11 events, 5 civilian deaths), Ghor (13 events, 12 civilian deaths), Helmand (25 events, 20 civilian deaths), Herat (20 events, 13 civilian deaths), Jawzjan (7 events, 4 civilian deaths), Kabul (63 events, 50 civilian deaths), Kandahar (28 events, 20 civilian deaths), Kapisa (19 events, 9 civilian deaths), Khost (10 events, 4 civilian deaths), Kunar (19 events, 5 civilian deaths), Kunduz (25 events, 23 civilian deaths), Laghman (12 events, 10 deaths), Logar (15 events, 13 civilian deaths), Nangarhar (80 events, 41 civilian deaths), Nimruz (8 events, 4 civilian deaths), Nuristan (4 events, 1 civilian deaths), Parwan (17 events, 13 civilian deaths), Paktika (4 events, 3 civilian deaths), Parwan (17 events, 21 civilian deaths), Samangan (6 events, 0 civilian deaths), Sar-e Pul (8 events, 1 civilian deaths), Takhar (40 events, 3 civilian deaths), Uruzgan (8 events, 8 civilian deaths), Vardak (6 events, 1 civilian death), Zabul (5 events, 3 civilian deaths). Source: UCDP, data covering 16 August 2021 to 22 October 2022 provided by courtesy of UCDP in an email, 24 October 2022.

interaction with Taliban members under UN sanctions, who were at the same time part of the *de facto* state authorities. Despite this situation as well as increased expenses, international aid efforts starved off the situation from escalating into a hunger catastrophe in the first months of 2022. Large parts of the population have however been facing a state of acute malnutrition. World Food Program (WFP) estimated in August 2022 that over half of the population was food insecure and described Afghanistan as 'one of the world's largest humanitarian crises'. At million people are estimated to be in need of humanitarian assistance. In addition to the economic and humanitarian crisis, natural disasters have been exacerbating the situation.

In October 2022, the World Bank released a report indicating that the Afghan economy contracted by about 20 % in 2021. The Afghan real GDP was estimated to contract further with 30–35 % in 2022. The report also concluded that the economy was adjusting to a low-level equilibrium, and that living conditions had stabilised and even marginally improved in recent months – although the situation continued to be dire. <sup>109</sup> Meanwhile, the United Nations Development Programme (UNDP) assessed that the contraction of the economy was 14–28 % during the first year of Taliban rule, depending on the used population estimates. <sup>110</sup>

In August 2022, Save the Children released a report based on a survey in which 1 690 children in 7 provinces had participated. 88 % of the children were eating less than usual since the Taliban takeover, and 10 % frequently went to bed hungry (two thirds of these children were girls). The report also showed that 5.5 % of girls had been asked to marry, and that 26 % showed signs of depression.<sup>111</sup>

During summer 2022, flash floods hit several provinces across Afghanistan and caused deaths and severe damages to houses, land, and livestock. UNOCHA estimated that 256 people had died in such floods in 2022, while 118 deaths had occurred only in August 2022. Taliban officials stated that 182 persons had died and that more than 250 had been injured.
